

NIHR STROKE RESEARCH WORKSHOP

Trainee Stroke Researcher Vacancy on the Steering Committee

After the highly successful NIHR Stroke Research Workshops in 2017 and 2018 the event is being repeated in September 2019 in Manchester. There is a vacancy for a stroke researcher in training to join the steering committee.

The role would include joining steering committee teleconferences to decide the programme for this year's meeting, as well as being enthusiastic advocates for the meeting, and leading on making junior researchers and medical students aware of the meeting.

This opportunity is open to any stroke researcher from medical student through to pre-consultant grades (for clinicians) and pre-lecturer or equivalent grades for basic scientists. Preference will be given to attendees of the 2017 and/or 2018 conferences.

Application process:

If you are interested please send a brief description (maximum 250 words) of why you think you would be a suitable applicant for the post, with a CV (this can be either brief or long and a CV prepared for another purpose is fine).

Please submit to Anna Bates strokepa@medschl.cam.ac.uk by midnight on Sunday 21st January, 2019.
